

SUMMARY OF NO. 13-23

This proposed law would eliminate Massachusetts sales and use taxes on computer system design services and services consisting of the modification, integration, enhancement, installation or configuration of standardized software. The proposed law would also eliminate a provision of existing law that expressly excludes data access, data processing, and information management services from Massachusetts sales and use taxes on services.

The new law would take effect seven days after certification of the 2014 state election results.
